

ADVANCED NEUROVASCULAR PRACTITIONER Rapid Review Course and Certification Exam

HOTEL VALENCIA RIVERWALK | 150 EAST HOUSTON STREET
SEPTEMBER 10 2022 | SAN ANTONIO, TEXAS

The ANVP certification examination is the premier certification in acute neurovascular clinical practice for advanced practice providers (APP). Attainment of ANVP-BC status demonstrates APP expertise in the assessment, medical diagnosis by localization and neuroimaging interpretation, and hyperacute treatment decision-making for highly vulnerable acute stroke patients. The ANVP's incorporation of key pathophysiologic concepts and evolving research findings also ensures expertise in methods for establishment of stroke pathogenic mechanism with related secondary prevention knowledge and competencies. The advanced scope of practice tested by the exam has made the ANVP-BC credential an important requirement at numerous acute care practice sites that aim to use APPs in expanded roles supporting telemedicine, mobile stroke units, and stroke emergency response. Exam eligibility is supported by strict criteria, ensuring certification of clinicians capable of combining theoretical knowledge with expert hands-on clinical practice skills. Upon completing the review course, an examination will be offered in-person or can be scheduled to be taken at a Prometric Test Center near you.
